

Open Donor: Mason

Staff Impression

Mason is tall with large muscles, a result of his Olympic lifting. Aside from competitive lifting he also plays hockey and cooks healthy, delicious meals in his free time. He has thick, brown hair that contrasts beautifully with his large, bright blue eyes. Mason has a strong jawline and full lips that frame a constant, broad smile. He normally comes into the office straight from the gym dressed in workout clothes, but he also cleans up nicely in the event of a business meeting dressing in well-fitting business attire. All these features make Mason a uniquely attractive donor.

Mason has a big personality to match the big smile he wears every day. He is extremely outgoing, makes friends wherever he goes and loves to make others smile. He is ambitious and driven to succeed, already on his way as a gym owner. Mason is also thoughtful and reflective, always doing what he can to help others. We believe that Mason would make a wonderful donor for any family.
