

Open Donor: Grayson

### Staff impression

Grayson is absolutely adorable with boyish good looks. He has tousled sandy blonde hair and blue/green eyes that crinkle in the corners when he smiles. He has light pink full lips and a tiny cleft in his chin. Grayson has a strong chin and masculine jaw line. He has a smattering of light colored freckles across his nose and cheeks. He has a medium skin tone that tans to a beautiful crisp golden brown. Grayson has a fantastic runners build and also practices martial arts. He dresses fashionably yet comfortably in form fitting t-shirts and khaki's.

Grayson is very mature for his age. He is polite and soft spoken, but is not shy or afraid to make his opinion known. He is smart and likes to study topics like history and science in his free time. Grayson is also very athletic and enjoys working out or playing sports. He has an artistic side and likes creating art as well as playing music. We asked Grayson to describe his personality and he said, "I'm quiet and introspective, with an innate need to better myself and force myself to succeed. I expect the best of myself, so I push myself to my limits. I don't back down. I protect those who I care about. I devote myself to my loved ones, and will do anything for them. As long as I am satisfied that I am doing my best, I am willing to take what comes and foe with it. I am not easily perturbed by my environment." Grayson is cute, smart, and comes highly recommended from us!
