

Open Donor: Khuyen

Staff Impression

Khuyen has smooth dark skin, which is complimented by his neatly trimmed black hair. He is lean, of medium build, and stands at roughly six feet. His bright smile brings out his thoughtful, dark eyes. Khuyen has an oval face with symmetrically placed features and nicely separated, full, black eyebrows.

Khuyen is a truly good human being. A testament to this is his most memorable childhood experience: standing up for a classmate who was being bullied by a group of other kids. In addition to being friendly, respectful, and honest, Khuyen enjoys basketball, football, and playing guitar. He values family and says his own has taught him the importance of being humble, hard work, and a solid education. Khuyen would make a tremendous donor for any family.
