

Garrick Staff Impression

Garrick has a tall, lean build, and is in great shape without looking overly athletic. He has light brown hair, sparkling blue eyes, and his best feature is his bright, beautiful smile that lights up the room. He has a square face and light to medium skin tone that tans in the summer.

Garrick is one of the most mechanically and technologically inclined donors we have had. He designed and built race cars in college and plans on a future in industrial/mechanical design. He owns a 3D printer and spends a lot of his free time using his computer to sculpt or design parts for his cars. He also is super passionate about traveling and has been able to see a lot of the world through his job as a contracted IT consultant- he hopes to continue to travel for many years and enjoys the enriching experience of being a part of other cultures. If you are looking for someone who is laid back, independent, technical, and adventurous, Garrick would be a great choice for you!
