

Open Donor: Pavl

Staff Impression

Pavl has a beautiful, smooth, olive complexion. He has brown eyes and thick, dark brown hair. He has very symmetrical facial features including a smile with straight, white teeth. Pavl exercises regularly, mostly through sports, to maintain an athletic physique. All of these features make Pavl a very handsome donor.

Pavl is very smart and always ready to engage in thoughtful conversation. He has strong opinions that are based largely on his views and personal experience. Pavl loves to travel and has had the opportunity to visit many different countries all over the world. Each place he visits, he really strives to capture the history and culture. Pavl is also athletic and plays on his college water polo team and on a variety of intramural sports teams. He is competitive but at the same time laid back and outgoing, making it easy for him to make friends. We believe that Pavl's drive to succeed and his great sense of humor make him a wonderful donor.
