

Open Donor: Jaxson

Staff impression

Jaxson is incredibly attractive. He is very tall and has a muscular build. He is extremely athletic and has been voted All-State and All-Conference player for baseball and football numerous times. Jaxson has thick dark brown hair and dark jade colored eyes. He has full light pink lips framing a beautiful smile. He has an adorable smattering of freckles gracing his fair complexion. He dresses in comfortable clothes and is often wearing workout gear.

Jaxson is an office favorite and everyone loves getting the chance to talk with him. He is laidback, calm, and sweet but he is also adventurous, outgoing, and jovial. Jaxson is always optimistic and upbeat. Jaxson's future endeavors include attending law school and starting his own family. We asked Jaxson what made him unique and he said, "I'm me. It's hard to explain it any other way than that. I always seem to surprise myself and others and I think that's because I'm far from having a "cookie cutter," predictable, personality and demeanor. I believe I can adapt to any situation I'm thrown into and find success while others may falter, and believe I still have a reservoir of untapped potential that others might not have." We adore Jaxson and we think you will too!
