

Open Donor: Alexander

Staff Impression

We could easily write an entire page on why Alexander is an amazing donor, but we will try to keep it short. Alexander is incredibly polite, respectful and mature for his age. He is not only smart and kind, but one of the most genuine donors we have. He is athletic, playing a number of sports in high school and continuing that through club sports in college. At the same time, he embraces his inner nerd with his love for Harry Potter and Star Wars. He also enjoys music, playing a variety of instruments and collecting vinyl records. There's nothing Alexander cannot do!

To top it all off Alexander is a good looking young man. At 5'11" he has a muscular build from regular exercise in the form of weights, cardio and sports. He has thick, strawberry blonde hair that he keeps short. Alexander is usually clean shaven with a smooth, fair complexion with the occasional freckles. Arguably Alexander's best attribute is his smile. When he smiles, it stretches from ear to ear, revealing straight white teeth and making his green eyes twinkle. Alexander is a remarkable young man and an incredible donor whom we truly enjoy having in the program.
