

Open Donor: Remy

Staff Impression

Remy has a muscular build, a result of his very active lifestyle comprised of sports and lifting weights. He has large, dark brown eyes and light brown hair to complement his medium skin tone that darkens with time in the sun. He usually keeps his face clean shaven, but does have a little scruff every so often. His hair is kept short and styled. Remy has full, pink lips that are usually smiling to reveal straight white teeth and a great smile. All these features make Remy a good looking young man.

Remy is one of the happiest, most outgoing, personable, charming and friendly donors we have in our program. He always has a smile on his face, is ready to laugh and joke around and always shows a genuine interest in the lives of those around him. We at the office know we're going to laugh the minute he walks through the door. Remy is a lover of all sports. He pursued a degree in sports journalism and is enjoying his career in that field. He's always up for sharing sports statistics with us. Remy is a truly great guy, and we encourage anyone looking at his profile to also take a listen to his audio interview as it will make your decision to choose him that much easier.
