

Magnus is an energetic, optimistic, and altruistic entrepreneur. He is always on the go whether traveling or simply active biking, dancing, and training in gymnastics. This donor's life has been an adventure as he does not shy away from diving headfirst into the cultures of the many places he has traveled, he has tackled starting his own international company, and he is always looking to take up new hobbies and skills. Conversations with Magnus are always upbeat and exciting.

Magnus is a very fit donor who keeps a healthful vegan diet and enjoys a physically active lifestyle. He has thick brown hair and fair skin with cheeks that are tan and rosy from all the time he spends outdoors. His face is symmetric with a slightly rounded nose, angular cheekbones, a square chin and jaw, full lips, and a broad smile. His most noticeable physical feature is his eyes which are striking kaleidoscopes of many shades of brown. With an inviting personality, an attractive face, and a lean and athletic physique, Magnus is both charming and handsome. We enjoy his visits and are happy to have him in our program.
