

Clive has dark hair and full brows with contrast nicely with his medium-toned skin and blue eyes. He has a rectangular face with very full lips and a square chin. He is a very athletic donor who was previously a semi-pro soccer player and currently stays active training for and competing in triathlons.

Clive is an easy to get along with type of guy whose focus in life is to find opportunities to help people whether in his chosen field of education or by helping people to have children by becoming a sperm donor. He is hard-working, well-organized, optimistic, and very funny. Clive does not shy away from the spotlight! With his humor, charisma, and leadership skills, he is great at motivating a crowd and getting a laugh while doing it. We think he's a great guy and a strong donor choice.
