

Open Donor: 10018

Staff Impression

10018 is tall with a very muscular, athletic build. He plays collegiate baseball and also lifts weight to maintain his well-defined physique. He has large, dark brown eyes and matching brown hair to complement his olive skin tone. 10018 has full lips that reveal a shy smile. He also has a strong jaw line and masculine features that make him a very handsome young man.

10018 is very shy, but he relaxes quickly and opens up once he gets to know someone. He is soft spoken but what says is usually very thoughtful and intelligent. While he may not be goofy upon first meeting him, 10018 has a wonderful sense of humor and can be goofy when he is comfortable. He is always asking for advice and criticisms as a way to improve himself. 10018 is a donor that is sweet, genuine, humorous and driven and we love having him in the program.
