

Staff Impression: Bertrand

Bertrand is an all-American boy next door. He is tall, has a fit, muscular build and is always tan. He has light brown hair and almond shape blue-green eyes. Bertrand keeps his hair short and styles and can be both clean shaven and a little bit scruffy. He has full pink lips that reveal perfect, straight white teeth. Bertrand is quite attractive and has a happy and charismatic personality to match.

Bertrand is very dedicated in his studies as an Electrical Engineering major at Arizona State University. He is also a passionate and talented musician playing in Jazz, Classical and Marching ensembles. He enjoys traveling within those groups and showcasing his musical talents at competitions all over the world. Bertrand is very friendly and easy to talk to once you get to know him. In the beginning he can be a little quiet and introverted, but once his guard comes down he can be quite playful and funny. Bertrand is a great donor candidate and wants to help those looking to start a family have the joy and happiness that he had growing up.
