

Saint Staff Impression

Saint is lean and tall with broad shoulders and long limbs. He has tan skin and handsome, dark features. His face is oval with full brows, a prominent nose, and eyes that crinkle charmingly when he smiles.

On first impression it is obvious that Saint is wise beyond his years, he is very introspective and self-aware while also being curious about the people around him. He is an outgoing and optimistic donor with a vibrant personality and warm smile to match. He has prioritized being financially independent, well-traveled, and academically accomplished, and he is already well on his path to achieving all of these things. We think that Saint is an exceptionally well-rounded guy and a great donor choice.
