

Staff Impression: Fenway

Fenway is taller with a muscular build, a direct relation to his current participation in club sports such as baseball, golf and club triathlon. He is also serving in the United States Marine Corp, so working out and military training keeps him in the gym and in shape. Fenway has flawless tan skin with a few freckles and a larger bone structure. He also has gorgeous thick dark brown straight hair that is always kept short and neat with absolutely stunning blue eyes.

Fenway is currently enrolled in college working towards a Bachelor's Degree in Bio-Medical Science. He is also talented in the arts, including playing the bagpipes for 5 years and even enrolled at a school for the arts from 5th to 8th grade. Other interests for Fenway include sports, traveling, spending time in the outdoors including going to his family's cabin to fish, boat and waterski. Fenway is a composed, easygoing motivated individual and we are lucky to have him be a part of our donor program.
