

### **Silver (12462) Staff Impression**

Silver is a handsome, intelligent, outgoing, hard-working, and well-rounded donor. He has tan skin and attractive, masculine features with a rectangular face, subtly cleft chin, square jawline, and a broad smile paired with a dimple on his left cheek. He never seems to have a bad hair day with a head full of thick brown waves that he keeps trimmed short on the sides with a bit of shag up top. He has an athletic build and is lean and muscular from regular training and competition.

Silver is a proud Division I athlete and an academically impressive student who keeps high grades and plans on going to law school; both are reflections of his hard work, determination, and the support of loving parents who are triathletes themselves! He is a pragmatic thinker with strong math, language, and musical skills. Family is very important to Silver who has a close relationship with his parents and brother and hopes to have children of his own someday. He joined our donor program because he wants to help others have children of their own. We think he is a great donor option and we are glad to have him as a donor!
