

Rune (12688) Staff Impression

Rune is a strikingly handsome donor with very masculine features, a rectangular face, high cheekbones, an angular jawline, and bright blue-green eyes. He wears a tidy beard and has silky, light blonde hair that he wears long and tied back. He is tall and slender with broad shoulders and long limbs.

Rune is a master auto mechanic with a degree in energy management. Rune's long-term career goal is to become an automotive repair and design consultant so that he has a more flexible schedule and more time available to spend with his family. He is a proud father who loves spending time with his daughter and has a close relationship with his own parents and siblings. He is humble and hard-working with a gentle, calming personality. He was inspired to become a donor because of his friendships with people who have faced fertility struggles and his own positive experience of being a parent. We appreciate having such a thoughtful, generous, kind, and well-rounded donor in our program.
