

12659 Holger

Holger is an overall happy, joyous, person and we love getting to know him more and more. He is tall, with beautiful, kind, hazel eyes and a warm smile to match. He is intelligent and driven, we were impressed with his work ethic and determination in his career. Along with his refreshing sense of humor, he is very social, outgoing, and can start a conversation with anyone. This ability is not surprising, as he has an empathetic soul and a bright outlook at life.

Holger is very proud of his Scandinavian and Icelandic roots; he hopes to be able to travel and learn more about his origin in the future. In his free time, he enjoys staying active by playing football, basketball, and especially golf! We are so thankful to have Holger in our program, and think he would be a wonderful donor for anyone.
