

Searl 12760

Searl is tall and very handsome with beautiful blonde hair and deep-sea blue eyes. We were immediately captivated by his educational background, as he is a recent college graduate from a prestigious university. Currently, he works at a consulting firm and at a gym. Aside from working, rowing, and skiing are his preferred sporting activities. Additionally, we often love hearing about his scuba diving experiences; it is not everyday you meet an active scuba diver! Searl is also very passionate about helping do his part to reduce climate change and aspires to travel to areas of the world that are most affected by it.

Searl's personality is relaxed, yet optimistic and mature. Not only is he a kind and caring individual, but he is also humorous and notorious for spot-on celebrity impressions. Searl is also an artistic soul and empathetic soul. He wanted to mention that he was personally conceived via IVF and would like to help support other families who have similar experiences. We are thankful to have him in our program!
