

### **Malone (12766) Staff Impression**

Malone is tall and handsome with an attractive oval face, thick hair, and a kind smile with full lips and nice teeth. He has a medium build and well-proportioned limbs. He has a flawless, tan complexion with a youthful glow. His casual yet fashionable and well-kempt style fits his thoughtful personality well.

Malone is exceptionally caring and artistically gifted, with a genuine, caring, relaxed personality. Although he is not overly chatty, he is eloquent, engaging, and charming with a quick wit. He is a skilled musician and producer who plays multiple instruments, has released multiple albums, and works collaboratively with other musicians as well. He has a remarkably close relationship with his sibling, parents, and extended family, all of whom he speaks about lovingly and with a twinkle in his eye. Malone's plans include building a recording studio, growing his audio production skills further, and marrying his fiancé whom he adores. We enjoy having him in the program and we are excited to be able to offer him as a great donor option!
