

## **Erdene 12799**

Erdene is a selfless, kind, and an incredibly empathetic person. He is as handsome as can be, with thick, wavy hair, a bright and friendly smile, and smile lines that create a defined cheek dimple on the right side of his face. Erdene has an impressive background in education and has two college degrees, including a juris doctorate degree in law. Currently, Erdene works as an attorney, and he blew us away with how passionate he is about helping others and dedicating his work to the community. He is relaxed and calming, but is hardworking and values grit, as his parents taught him growing up.

When he is not working, he enjoys maintaining an active lifestyle as a cyclist, and has been riding bicycles for nearly two decades! He also enjoys traveling and connecting with others. Erdene is a one-of-a-kind guy who is friendly, profound, and truly wants to help others. We are very thankful to have him in our program!
