

Donor June

Donor June exemplifies the true meaning of a “real catch”. He is incredibly handsome, intelligent, and compassionate. He has soft, hazel eyes and thick, dark, caramel brown hair. Donor June has a beautiful smile, and we were not surprised to hear that he is a full-time practicing dentist! When he is not practicing dentistry, he enjoys hiking, playing sports, traveling, and hanging out with his dogs. Donor June considers himself a big animal lover, and we loved how his favorite animals are polar bears.

Donor June is exceedingly driven and passionate about his career; we were impressed to hear he aspires to own his own dentistry practice in the future. He also wishes to continue his traveling endeavors including one day traveling to Europe or any tropical place to relax on the beach. Our impression of Donor June was that he was the utmost of empathetic, kind, and truly a wonderful donor choice for any family.
