

Gru 10612

From the moment we met Gru, we knew he would be an outstanding addition to our program. He is compassionate, humble, intelligent, and successful, and we believe, could be an ideal donor for many families. He has blonde hair and blue eyes, with a kind smile. Gru graduated college at the top of his class, ranking with a 4.0 GPA! He has a master's degree in accounting but also hopes to pursue creating his own business. Gru is very talkative, and we enjoy his calming tone and organic humor.

In his free time, Gru enjoys being in the company of friends, exploring concert venues, reading, and learning new things. He always displays a "How can I help?" attitude, and his reason for wanting to be a part of our donor program is truly genuine, and heartwarming. We recommend Gru to any family that is seeking an all-star donor!
