

Open Donor: Vladimir

Staff Impression

Vladimir's big, round, open brown eyes are the first things one notices upon meeting him. He has straight brown hair and thick brown eyebrows to match. His medium-tone complexion is clear and smooth. Vladimir stands just under six feet and maintains long, lean muscles. His nose is straight, and his facial features are all symmetrically placed, making Vladimir a most attractive young man.

Vladimir possesses many wonderful qualities and skills; for example, he fully renovated his 100-year-old house. His intellect and intelligence are vast, allowing him to enjoy a successful career in software engineering. He loves building things and also taking things apart to see how they function. He aspires to acquire enough wealth to one day give back to the small towns he grew up in. Vladimir exudes warmth, reason, and comfort. He is an extremely well-rounded donor.
