

Montez 12756

Montez is intelligent, determined, and always dreams with diligence! He is ever so handsome, with soft brown eyes, curly brown, and a strong, angular face. Additionally, he is bilingual and speaks German and English as second languages. Currently, Montez works as a software developer, but we were impressed to hear he has a goal to become an astronaut. This comes as no surprise, as he values hard work, passion, and resilience.

When he is not working, Montez enjoys boxing and traveling, he has been all over the world; Mexico, Canada, Germany, Ireland, and Ukraine, just to name a few! We enjoy Montez's adventurous, yet relaxed personality and are grateful to have him in our program.
