

Caspian Staff Impression

Caspian is a wonderful addition to our donor program. Standing at 6 feet tall, he has an athletic build, which he maintains with regular cardio and weight training. He has hooded, brown-green eyes, which are complemented by his straight brown hair and light olive complexion. Caspian has an oval face, high cheekbones, and thin lips. On most days he can be seen sporting some well-maintained facial hair.

Caspian served our country in the military and achieved his associate's degree in computer science. He has immersed himself in the language and study of Japan and hopes to someday fulfill his dreams of teaching English in Japan. Caspian has a close relationship with his family and credits them for helping him understand the value of hardworking and earning things for himself. Caspian is a great option for anyone searching for a loyal, dedicated, compassionate, and selfless donor.
