

Topaz Staff Impression

Topaz is a fit individual who stand 5'10" tall and has a medium skin tone. His inviting brown eyes pair handsomely with his light brown hair. Among these characteristics, one would say that his personality traits are what make him considerably more attractive. Topaz is an incredibly caring and easy to talk to person, and really shows that he is a great listener.

He aspires to work as a physician in neurology and has proved nothing but persistence and enrichment into this goal. He is currently both a student and a researcher studying cancer. With his undeniable interest in the field of medicine and his nurturing demeanor, there is no doubt that Topaz will one day become an amazing physician. When he does have a moment to himself, he enjoys being out in nature, especially the beach. He is not an avid athlete in any particular sport, but enjoys working out and maintaining a healthy lifestyle. Topaz is a great choice as a donor and we are really glad to have him!
