

Linus 14197

Linus is adventurous, intelligent, and has an active and optimistic personality. He has brown hair, brown eyes, and soft facial features, including a handsome, smirky smile. We enjoyed speaking to Linus, as he described his admiration for unique activities such as CrossFit and racecar driving!

Linus is well-seasoned in traveling, as he has traveled all over the world, but he would like to visit New Zealand for its amazing landscapes and greenery. We found a great personality trait of Linus to be that though he is a go-getter and seeks adventure, he values his childhood memories with his family, and never forgets his roots. We think Linus would be a great donor!
