

### **Chicago 14237 Staff Impression**

Chicago is a kind, empathetic, generous, and intelligent guy! He has thick, brown hair and deep blue eyes that are very admirable. Chicago blew us away when he revealed that he works in the Environmental Chemistry field and is already in a position of leadership in his career. He has large goals for himself in life, and it is apparent he will do whatever he has to, to achieve them.

In his free time, Chicago really enjoys rock climbing, which our clinic staff has been able to connect with him on. He also enjoys surfing and staying active, overall. Though Chicago and his wife are not planning on having children of their own, Chicago felt compelled to join our program to help other families in need. We enjoy Chicago's inquisitive, empathetic, and optimistic personality; we recommend him to any family!
