

Fai 10541

Fai is a fun, outgoing, and lovely person to be around. He is currently a part time student, with proficient mathematical skills and has a goal for himself to work at a technology company in the near future. Fai has had a lot of traveling experience, living in three different countries! We enjoy hearing about his various experiences and adventures.

When Fair is not busy at school, he enjoys plenty of outdoor activities including hiking, kayaking, and biking. He is also quite fond of basketball from time to time. In addition to enjoying these activities and having a logical mindset, Fai has artistic drawing abilities and has dabbled in playing the guitar and drums. Fai is well rounded and adventurous; he is a great addition to our program!
