

Ephriam Staff Impression

Ephriam is a fantastic addition to our donor program. At 6ft tall, he has a slender build, which he maintains with athletics, such as soccer. He has a fair complexion, compliments of his Romanian roots. He has genuinely kind almond shape brown-green eyes that stand in contrast to his medium brown short hair. Ephriam has a round face, accentuated by high cheekbones, full lips and pleasant smile.

Ephriam has obtained a degree in computer science and plans to pursue a career as a software engineer. As an immigrant to this country, he prides himself on defying adversity with dedication and kindness. He strives to mirror the motivation and fortitude that his parents showed him growing up. He credits his mother with showing him where hard work can take you and his father for his compassion and empathy. Ephriam is an old soul and is a lovely choice for anyone searching for their special donor.
