

Prescott Staff Impression

Prescott totally embodies a traditional surfer, not only in looks but in his whole attitude. He is calm, contemplative, empathetic and kind. Just under 6ft tall, he has a natural athletic physique. He maintains his health and fitness with frequent surfing and daily skateboarding. He has a lovely tan complexion that allows his thick wavy blonde hair and dazzling round blue eyes to really pop. He has plump, full lips, straight white teeth, and a shy smile.

Prescott is currently studying Neuroscience and Philosophy. He plans to use this education to pursue not only a career in Cognitive and Behavioral Neuroscience, but to also help make advancements in the field in the future. His levelheaded demeanor and openness to communicate make him very well suited for that area of work. Prescott has a very good relationship with family, however as he has gotten older, he has developed his own sense of self, direction and values being in service of others more than achieving materialistic things in his life. This donor is a wonderful addition to our program and will be an excellent choice for anyone looking for the complete package.
