

Tweed Staff Impression

Tweed is an exceptional addition to our donor program. He is not only very attractive, but also kind, outgoing, athletic, and compassionate. A natural athlete, he has a strong and muscular frame. He is consistently active, whether it's in the gym, playing basketball or working hard as a firefighter, Tweed maintains a very healthy lifestyle. He has short straight light brown hair and round ocean blue eyes that really sparkle against his fair complexion. He has an oval jawline, complimented by a slender nose and high cheekbones.

Tweed obtained his master's degree in exercise science and has applied that knowledge and practice to his career as a firefighter, where his strength and empathy have helped him achieve success and climb the ranks. In addition to his athletic prowess, Tweed is also an explorer and world traveler, having jetted all over the world, exploring new cultures and embracing the communities around him. He has a strong sense of self and hopes to someday a family and children of his own to share his adventures with, like him and his father do to this day. Tweed will make a wonderful selection for anyone searching for a donor to help them on their fertility journey.
