

## **Oyster Staff Impression**

Oyster is the complete package, handsome, intelligent, athletic, funny, and confident. Standing over 6ft he has a broad and strong physique. He maintains his strength with powerlifting, but also enjoys swing and hip hop dance. Oyster has sparkling and kind green eyes, shy smile, full lips and cute dimples. He has thick light brown hair that he keeps short and styled.

Oyster is currently an avionics technician, and currently pursuing a degree in Aerospace Engineering. He is driven in his pursuit of owning and running his own business and/or continuing to in an aerospace career. As an only child Oyster has a very good relationship with his parents. They not only helped shape him into the kind, caring, compassionate person he is, but they gave him stability and encouraged him to be his best. Oyster is a truly great human and will make a fantastic donor for all who choose him.
