

Staff Impression Ludlow

Ludlow is respectful, kind, and enters the room with a beautiful wide smile. He has chiseled handsome features, a well-defined brow line and deep-set eyes. His handsome features are accompanied by a sporty casual style. He is typically seen in a graphic tee, button up, and chain. His jaw and chin are square with high cheek bones.

Ludlow is a joy to be around and always up for conversation! He spends his time creating art that meditates on his inner thoughts and feelings, reading fantasy novels, and planning his next teaching session. He cares deeply about his students and his style of teaching is not to just lecture and explain, but to be a part of it and share interests, so he can learn from his students too!

Ludlow is such a thoughtful person to have in our program and we love having donors with such strong values!
