

Mayon 10653 Staff Impression

Mayon has a variety of interests and hobbies ranging from a deep passion for music to camping! Mayon's profession is one of these passions: jazz and Latin music. The discipline to be an artist and performer is a value he accredits to his parents, and one that must ring true as he often performs alongside his brother! He is currently reading all he can about foraging and botany, exemplifying Mayon's drive and inquisitiveness. Intentionality is another value he holds close, especially through sound or visual media. He tends to enjoy documentaries or Art House films, something he can be impacted by. On top of an incredible personality, Mayon has sweet boyish features with velvety brown eyes framed by his long wavy deep brown hair. His features are accentuated by his adorable cupid's bow and pouty full lips.
