

Staff Impression Mitch 12856

Mitch is magnetic, passionate, kind, and a people person! He has beautiful deep amber eyes that light up when talking about his various hobbies and friends! They are framed by short dark brown eyebrows and compliment his long rectangular face. His hair stops halfway down his face and is dark brown with the sides shaved close. His full lips are pouty and small with a deep cupid's bow. His nose is long, slightly curves down, and has a dimpled nasal tip.

Mitch has many hobbies and finds a lot of joy sharing space with people. He spends a lot of time DJing, producing music, dancing, and spending time with friends. You can also find Mitch long boarding, camping, or playing frisbee golf. Mitch has dedication to his artistic craft and various hobbies, and yet still manages to be a graduate student in Communications! His personality is so flattering and in combination with his charming features, Mitch really is a one-of-a-kind donor and we're so thrilled to have him in our program!
