

Yoda 10620 Staff Impression

Yoda is tall and slender with the athletic build one would expect from a former soccer player and runner such as himself. He maintains his fit physique with regular cardio and weightlifting. He has lovely green-brown eyes that stand out against his clear olive complexion. He's a no muss, no fuss kind of guy when it comes to his hair and opts to keep his straight light brown hair short. Yoda has a defined jawline and keeps a very nice, well-maintained beard. He has full lips and a shy smile.

Yoda obtained a Ph.D. in mechanical engineering and currently is a research scientist. True to his nature, he is constantly putting things together, taking them apart, and imagining new ways to create. He's a unique combination of vast intelligence, a little nerdy with his love of Star Wars and board games, introverted but funny, reserved but also kind. Becoming a father has been the greatest adventure for Yoda and part of the reason he joined the donor program, so other people can feel the same joy he feels raising his child.
