

## Dujardin Staff Impression

Dujardin is a lovely combination of intellect, charisma, ambition, and heart. Standing at 6ft tall he has a slender build, his physique maintained by years of cross country running and tennis. He maintains that active lifestyle today and strives to be physically and mentally fit. He has a square jaw line, thin lips and small dimples. Dujardin has kind, large, round blue-green eyes that stand in contrast to his clear medium complexion and strawberry blonde hair.

Dujardin has completed multiple degrees in chemistry and applied mathematics, and currently uses that knowledge as a research chemist. He is a true explorer and prides himself on developing his huntsman and outdoors skills and minimizing his carbon footprint. The offspring of a donor himself, Dujardin has a unique perspective on being a donor, and it brings him joy to know he is helping those out there experience parenthood the way his family was able to.
