

## Mariano Staff Impression

With his boyish good looks, intelligence, natural athleticism, and great personality Mariano is an excellent addition to the donor program. At 6'4" he has a lean, fit frame, maintained with regular gym workouts and cycling. He has a lovely fair complexion that allows his striking brown eyes and gorgeous thick dark brown hair to really stand out. He has a defined heart shaped face, highlighted with high set cheekbones, round tipped nose, thinner lips, and infectious smile.

Mariano is currently pursuing a degree in economics and mathematics (he's a real math whiz) and hopes to use the skills gained in college to serve his community in everyway he can. In addition to his studies, he always finds time to be active, whether that's in the gym, completing the MURPH workout or running. A history buff through and through Mariano hopes to travel to Europe, to immerse himself in culture and learn their stories. Mariano shares a strong bond with his family and credits them with molding him into the man he is today. He one day hopes to share those values with his own children.
