

Zale (12431) Staff Impression

Zale is laid back, outgoing, friendly, and upbeat, yet driven and an analytical thinker with strong entrepreneurial skills. He has a rectangular face with a pointed nose, broad smile, high cheekbones, and strong jawline. He has a head full of enviably thick, brown, wavy hair, and a thick beard that he keeps trimmed short. He is physically fit with a lean, athletic body type.

Zale is a social and physically active guy who likes to spend time outdoors hiking, camping, rock climbing, and playing sports with friends. He has many interests and is open-minded and adventurous, enjoying trying his hand at new pastimes, sampling various cuisines, and traveling to experience other locations and cultures. Though he highly values his independence, he has a close relationship with his parents and his brothers who have all shaped his values and inspired his career goals. We are excited to be able to offer this charismatic and likable donor.
