Hadwin Staff Impression

With his All-American, boy next door good looks and big heart, Hadwin in a fantastic new addition to our donor program. Standing at just under 6ft, he has broad shoulders and a strong, muscular physique. To maintain his level of physical fitness, he regularly lifts weights and is a recreational body builder. He has a fair complexion, short wavy blonde hair and sparkling light blue eyes. Hadwin has an oval face and high set cheekbones, highlighting his infectious smile.

Having already completed his education, he is currently working in the digital marketing field. While he does not have a specific long term career goal in mind, he is very focused on ensuring that he not only remains active in his community, but that he leaves the world in a better place. In his free time, he can be found testing his limits at the gym, watching the occasional football game, or playing video games. Hadwin is passionate, service driven and easy to get a long with, and we are excited to have him in the program!
