

### **Danyew 10566 Staff Impression**

Danyew is intelligent, with an ambitious spirit, and a wonderful personality. He stands tall at 6'0, with brown hair, soft, brown eyes, and a beautiful smile. Danyew is bilingual, speaking fluent Spanish as a second language. We enjoyed hearing about Danyew's gifted ability in mathematics, as he has completed classes up to Calculus III! This gift applies to his everyday life, as he has obtained a Master's Degree in Computer Science and Cybersecurity.

When he isn't working, Danyew is athletic and adventurous. He enjoys snowboarding, weightlifting, and surfing. We also admired his ambition to visit at least 50 countries before he turns 40, and we think this goal speaks to his desire to learn about different cultures, meet a diverse range of people in life, and help make the world a better place. Danyew is a wonderful addition to our program!
