

Open Donor: Maddox

Staff impression:

This ½ Italian donor stands tall (at 6'1") with an athletic build and brilliant smile. He has a tanned complexion and dark brown hair. He has a full sleeve of tattoos on one of his arms and dresses in a casual and chic fashion.

When we asked Maddox about some of his strong sides he replied, "One of my greatest assets is being able to comprehend multiple perspectives and truly understand other people's points of view. I find this makes me a great friend, good communicator, quality business associate, accentuates my open-mindedness and in general helps me to make the best decisions possible. I'd also note my passion for self improvement both physically, mentally and socially."

Maddox is inherently friendly and outgoing; everyone in the lab knows him and loves chatting with him, as he is really witty and intelligent. He is incredibly vibrant with a contagious upbeat mood; he is quick to put a smile on your face just by seeing him walk through the door.
