

Open Donor: Cheung

Staff Impression

Cheung is tall and slender with a narrow frame. He has smooth, clear, olive skin with two or three dark freckles on his face. His eyebrows and hair are black, and his eyes are also very dark and shaped like skinny almonds. He has a wonderful set of straight, white teeth. With all of his facial features being symmetrical and proportional, Cheung is very attractive.

Pensive, calm, but able to be silly, Cheung maintains a great personality, with a lot of empathy and compassion for those around him. He is extremely intelligent, and when he is quiet it is safe to assume he is thinking of something. Cheung loves swimming, lifting weights, and playing badminton. He also sings! Cheung is an all-around good donor.
