

Open Donor: Lincoln

Staff Impression

Lincoln has wonderful olive skin, reflecting the Japanese half of his heritage, the other being German. His face is round with a small but defined chin. Lincoln's skin tone lends itself to his dark features—eyes, hair, and brow. In the summer months he wears a great tan. With a flawless and smooth complexion and proportional features, Lincoln makes a very good first impression.

Lincoln maintains a serious demeanor but knows when to let loose. He plays sports recreationally all year long, which keeps him in fantastic physical shape. Lincoln worked very diligently throughout his undergraduate years and has kept the same strong work ethic ever since; it helps that he very much enjoys what he does. Lincoln makes for quite a well-rounded donor.
