

Open Donor: Radclif

Staff Impression

Radclif's most distinguishing features are his mischievous smile and inquisitive blue eyes. His reddish-brown hair perfectly contrasts with his fair skin. His eyebrows and eyelashes are very light, and his eyes are shaped like half circles. His oval face carries a nicely defined chin and symmetrically placed nose. All of these factors combine to make Radclif quite a cute young man.

Raclif loves the outdoors, which is why he made the move to the Pacific Northwest, where he is able to kayak, hike, and paddle-board. He also maintains an extremely friendly and laid-back disposition, making it very easy for others to talk to him. Radclif possesses the important skill of putting things in perspective, thus allowing him to enjoy life every day without sweating the small stuff. He is an all-around fantastic donor.
